

Around 10 am on Sunday you will need to click on the link provided on the website.

You may want to start a few minutes before if you have not ever used Zoom. It will make you download the program and that could take a minute.

Once you have clicked on the link it will prompt you through the next steps. You do want to ALLOW any changes made. Once the program is installed you may have to launch the program. The icon is a little blue camera.

You will also want to ALLOW internet audio.

You do not have to have an account, but they are free if you want to go ahead and create one. Once you have the program on your computer there will be a place to type your name and you may need to hit join meeting one more time.

If you are going to use your smart phone or devices you will need to download the Zoom App. It will still prompt you when you are logging into the meeting once you click the link if you have the app. Make sure you ALLOW internet audio.

It may, when prompting for your name, also ask for a meeting id. The id will be on the website under the Zoom link!

Have a great week and if you have any questions please feel free to contact us through the contact page on the website!

Blessings,  
DCS Pres
